

Effective January 1, 2016, the Government of Ontario is removing the Debt Retirement Charge (DRC) from certain residential electricity consumers' bills. Bulk metered multi-unit residential buildings are also eligible for a DRC exemption of up to 1,500 kWh per month per eligible residential unit.

In order to receive the DRC exemption, clients with an eligible bulk metered multi-residential building must notify their local distribution company (LDC). For information about the DRC exemption, visit enercare.ca/RegulatoryChanges. To assist clients, **Enercare will be managing the submission process on the client's behalf; however, clients must fully complete the DRC Self Declaration form as Enercare is not authorized to sign the form.**

Submitting Your Form to Enercare

Enercare requests for completed DRC Self Declaration forms to be submitted by November 15, 2015 in order to allow adequate time for review by Enercare and submission to the LDC. Provided that properly completed and executed forms are submitted to the LDC in advance of January 1, 2016, bulk bills should reflect the DRC exemption effective January 1, 2016.

Self-Declaration Form Debt Retirement Charge (DRC) Exemption

The Ontario government has announced the removal of the Debt Retirement Charge (DRC) from residential electricity consumers' bills after December 31, 2015. In addition, non-residential customers who have at least one eligible residential unit are exempt from paying the DRC up to 1500 kilowatt-hours (kWh) of monthly consumption multiplied by the number of residential units stated in its declaration form.

Customers with a Bulk metered multi-unit residential complex can self-declare their eligibility for the Debt Retirement Charge Exemption if they qualify. **Please return this completed form as soon as possible** to register your account so that you may receive the exemption from paying the DRC for the first 1500 kWh of electricity used per month per eligible residential unit. This exemption applies only to electricity consumed on or after January 1, 2016. Declarations received after that date will be applied to the next bill and not applied retroactively.

Step One – Does your account qualify?

As defined in Ontario Regulation (O.Reg. 493/01), you qualify for DRC reduction if your account relates to:

An eligible residential unit that:

- (a) Is a self-contained set of rooms located in a building or structure,
- (b) Contains kitchen and bathroom facilities that are intended for the use of that unit only, and
- (c) Is used or intended for use as a residential premise.

Note: to qualify, the unit must meet all three of the criteria included above.

Please visit www.ontario.ca/drc for more information on the DRC exemption.

Step Two – Complete this form:

If your account qualifies, please fill in the information below. If you have more than one qualified account, list each account separately. Please attach a separate page if you have more qualified accounts to add. If there are units in your building or complex that are metered or billed separately from the account referenced, do not include them in the total number of units for this account. By completing this form, you certify that the account(s) listed below provide(s) electricity that is consumed in at least one eligible residential unit.

Self-Declaration under the Electricity Act as an eligible Multi-Unit Residential Complex
